

**19TH INTERNATIONAL CONFERENCE ON “TRAFFIC NOISE”
FROM 01ST - 03RD OCTOBER 2010, DRESDEN, GERMANY
WITH THE NETHERLANDS AS THE PARTNER COUNTRY**

Call for Papers

We are pleased to invite the global noise protection and soundproofing community to attend the 19th Annual International Conference on Traffic Noise.

It will again **bring together industry experts** and **highest level executives** from **every infrastructure** to provide a forum for an interdisciplinary and international exchange to share experiences and solutions on existing and future **approaches towards noise abatement**.

The 19th Annual International Conference on Traffic Noise focuses on all the key noise issues including e.g.

- Conception, planning and implementation of large-scale noise reduction programs
- Public awareness and communication with parties concerned in surrounding areas (Airports, marinas, etc.)
- The impact of traffic noise on humans and marine mammals
- Legal issues of traffic noise
- The application of photovoltaic elements at noise barriers
- Innovative efforts towards passive noise protection (windows, roofs, noise-insulated ventilators)
- New ideas in the design, manufacture, application and operation of noise barriers
- Measures for noise reduction at its source (vehicle, vessel, driveway, etc.)
- Major noise protection projects to be privately funded.
- Introduction of state-of-the-art soundproofing technologies as well as
- Country specific noise control procedures/programmes

Papers that focus on the described topics are very welcome. We are looking forward to receiving inspiring suggestions addressed to us regarding possible workshop topics and plenary papers to create an interesting conference program.

Schedule 19th ICTN

Day 1 | October 1st, 2010

08.30 – 12.00 Plenary session

15.00 – 18.30 Workshops

Aircraft Noise
Road Noise
Railroad Noise
Ship/Underwater Acoustics

Day 2 | October 2nd, 2010

08.00 – 12.00 Plenary session

15.00 – 18.30 Workshops

Aircraft Noise
Road Noise
Railroad Noise
Ship/Underwater Acoustics

20.00 Evening Reception

Day 3 | October 3rd, 2010

10.00 Networking

About Us

The Hamann Consult AG represents a German engineering company that has been dealing with all aspects of traffic noise mitigation for 20 years, serving both national and international clients. Since 1992 and taking place every October, we have organised an annual meeting of leading scientists, researchers and practitioners from industry, administration and politics involved in noise prevention and innovative approaches of combating noise.

Being a **platform for the exchange of experiences** among **decision-makers** across the various disciplines of **road, rail, sea and air transport**, this conference aims at developing more **effective strategies** for the **protection** of the population and the entire environment from **traffic noise** and at implementing them as swiftly as possible.

Contact

We are looking forward to welcoming distinguished guests and contributors.

If you have any further questions concerning speaker or sponsor information please feel free to contact us.
