

## Info\_03 – Annual International Conference on Traffic Noise

### Latest News

HAMANN CONSULT AG is pleased to invite the global noise protection and soundproofing industry to attend the 19<sup>th</sup> Annual International Conference on Traffic Noise.

This international event takes place in Dresden, Germany, from October 1<sup>st</sup>-3<sup>rd</sup>, 2010.

It will **again bring together industry experts and highest level executives from every infrastructure** to provide a forum for an interdisciplinary and international exchange to share experiences and solutions on existing and future approaches towards noise abatement.

We are looking forward to welcoming distinguished guests and contributors.

### Location

This year, the **Dresden Hilton Hotel** will serve as location for the International Conference on Traffic Noise. Located in the center of Dresden next to the Frauenkirche church, the Hilton Hotel and its modern congress center offer to be the perfect spot for the ICTN 2010.

Enjoy your stay in the heart of the old town, within immediate vicinity to the Semper Opera House, the Zwinger, Dresden Palace with the Green Vault and the Elbe River.

### Call for Papers

The 19<sup>th</sup> Annual International Conference on Traffic Noise focuses on all the key noise issues including f.e.

- Conception, planning and implementation of large-scale noise reduction programs
- Public awareness and communication with parties concerned in surrounding areas (Airports, marinas, etc.)
- The impact of traffic noise on humans and marine mammals
- Legal issues of traffic noise
- The application of photovoltaic elements at noise barriers
- Innovative efforts towards passive noise protection (windows, roofs, noise-insulated ventilators)
- New ideas in the design, manufacture, application and operation of noise barriers
- Measures for noise reduction at its source (vehicle, vessel, driveway, etc.)
- Major noise protection projects to be privately funded.
- Introduction of state-of-the-art soundproofing technologies as well as
- Country specific noise control procedures/programmes

The HAMANN CONSULT AG warmly invites you to take part in the 2010 symposium to discuss the issues raised together with national and international experts and top decision makers.

Papers that focus on the described topics are very welcome. We are looking forward to receiving inspiring suggestions addressed to us regarding possible workshop topics and plenary papers to create an interesting conference program.

### Register Now!

If registering in writing **by March 31st, 2010**, you will benefit from our **very-early bird discount of 25%**:

Conference fee\* 1.950,00 € / **1.460,00 €**

Fee charged to representatives from ministries, authorities,  
communities as well as colleges and universities\* 580,00 € / **435,00 €**

### **Five Reasons to Benefit from Participating in the International Conference on “Traffic Noise”:**

You will leave this Conference with new input and lots of applicable strategies. You will take home a minimum of two or three invaluable ideas that will have a significant impact on your business. Why?

1. 90 % of all participants are decision-makers and people in top positions of their businesses in Europe, America, Asia, etc. This Conference is a unique opportunity to make new, valuable and worldwide business contacts and to maintain existing ones. Long decision-making procedures are dismissed, since there is communication at the highest level.
2. The contents of the Conference and its lectures aim at direct and practical applicability. We are going beyond scientific treatise and basic research. This is where we are taking the step towards implementation and immediate application: Best Practice!
3. At our Conference, suppliers and customers meet directly, guarantying a direct and cross-disciplinary exchange of experience between the various means of transport and industry. Upon your request, we will invite partners favored by you.
4. There are not only representatives from practice and science, but also from the fields of public relations and communication as well as from the field of law. It is our assertion to provide for a cross-disciplinary Conference that covers all crucial issues regarding traffic noise mitigation.
5. You are welcome to participate in exclusive in-depth workshops dealing with topics of the respective infrastructural areas and working out target-oriented approaches.
